

ICE WASH BOWSER

The ICE Wash Bowser is a self-contained mobile pressure washer unit complete with a 120 Litre water tank and a Honda petrol engine. It is highly mobile, easy to handle, and contains a convenient built-in hose reel.

This unit is great for use in public spaces where you can avoid the trip hazards of the water hose and electric cable trailing behind you. The heavy duty ‘Wheel Barrow’ chassis contains the polyethylene water tank, pressure washer and hose reel with 10m of high pressure hose.
